## **VIZCAN Systems and Christie Team-Up to Provide Advanced Visualization Solutions in Canada**

**November 15, 2004**, VIZCAN Systems is pleased to announce it is joining forces with Christie, a leading provider of visual solutions for business, entertainment and industry, to market, deliver and support Advanced Visualisation Systems within the Canadian marketplace.

Advanced Visualisation systems are used for many applications in academia, government and industry for such applications as energy exploration, urban planning, aerospace, mechanical and architectural design, simulation, auto and ship design, medical and biomedical research and a host of other related environments.

VIZCAN acting as a sales agent will provide sales and marketing services while Christie will provide best-in-class projection technology made at its Canadian-based ISO9001:2000 certified manufacturing facility.

“VIZCAN is pleased to team with Christie,” stated Bruce Ricketts, President of Ottawa-based VIZCAN. “The Advanced Visualisation market in Canada is an evolving market that can be best serviced by the combined strengths of our two companies.”

“Christie feels strongly that this partnership will greatly improve our focus and show further commitment to the Advanced Visualization Marketplace in Canada,” says Dave Muscat, senior business development manager for Christie Canada.

### **About Christie**

Christie is celebrating its 75th anniversary as a leader in visual solutions for world-class organizations, offering diverse applications for business, entertainment, and industry. With expertise in film projection since 1929 and professional projection systems since 1979, Christie has established a global reputation as the world's single source manufacturer of a variety of display technologies and solutions for cinema, large audience environments, control rooms, business presentations, training facilities, 3D and Virtual Reality, simulation, education, media and government. Over 75,000 installations worldwide use Christie projection solutions including 10,000 projectors and display devices equipped with ChristieNET™ networking solutions.
